

I WANT TO PERSONALLY INVITE YOU.

From the beginning, we said this church was not built on the talent of one but on the sacrifice of many. Throughout the years, people have not only heard the vision, but have acted on the vision to see it become a reality. They have sacrificed time, energy, resources and more to create a place for people to truly encounter the presence of God.

I want to personally invite you to be a part of the future that God is building here. We are going to witness thousands of lives and families changed for eternity. If we work together and fight for the unity of the Spirit, we will not only see God move mightily on our behalf, we will actually be the move itself. I am inviting you to ask God what He would have you do. Everyone's commitment will look different. Your prayer and financial commitment (above your regular tithe) will be different, but every single gift is just that: a gift of equal measure and beauty and sacrifice before the Lord. I am not inviting you to give, but I am inviting you to ask God what He would lead you to do.

I believe God will speak to you. I believe He will speak to us. I believe together we will witness in our time and in our day a move of God the likes of which this city has never seen.
